

## Update from the State Water Resources Control Board's Delta Watermaster

---

**Summary:** Craig M. Wilson, Delta Watermaster will provide a brief presentation on the role the State Water Resources Control Board can play in implementing the Delta Plan.

---

### **Background**

The State Water Resources Control Board (State Water Board), as the State's principal water resources regulatory agency, has existing statutory authority to help implement and enforce many of the types of regulatory policies and recommendations that will likely be included in the Delta Plan. California Water Code Section 85320 (d) directs the State's Delta Watermaster to submit regular reports to the State Water Board and to the Council on water issues. The Delta Watermaster, Craig Wilson, has recently drafted a report that was presented to the State Water Board on March 15, 2011 entitled: *The State Water Resources Control Board's Role in Implementing the Delta Plan*. Mr. Wilson will brief the Council on this report and engage in a discussion with Council members.
